4. (Unclassified - JSW) John S. Warner accompanied by Mr. Woodyear of State met with the full House Armed Services Committee which heard Mr. Rivers report our early retirement bill. Several technical questions were asked of Mr. Warner. The full Committee then unanimously reported favorably on the bill.

5. (Internal Use Only - JSW) Boyd Crawford, Chief Counsel of the House Foreign Affairs Committee, advised, as a matter of information, that the Committee has suspended further action on S. 777 which is a bill to authorize appropriations for ACDA plus some other amendments to the basic ACDA act. The Committee is taking the position that until AEC, DOD and CIA appear before the Committee to discuss the interplay with ACDA they will take no further action on the bill. This, in effect, would put ACDA out of business. The Committee has asked ACDA to make arrangements for these agencies to appear this week. I thanked Mr. Crawford for this information. Upon checking with Elder, I learned that Mr. Foster of ACDA had already been in contact with the Director.'
